## PROJECTS

---

### Master Calisthenics Elite Management System

01/2026 – Present

#### Full-Stack Web Development & Business Automation

Developed an automated membership and payment tracking platform for a physical fitness facility using a **Full-Stack** architecture.

- **Automation:** Built a system to track five distinct training batches, using **Supabase** and **Razorpay** to automate fee extensions and payment status updates.
- **Retention:** Integrated **WhatsApp API** via serverless functions to send automated fee reminders to members with less than 3 days of remaining credit.
- **Analytics:** Created a **Coach's Dashboard** with real-time visual indicators (Red/Yellow/Green) to monitor member expiry and program distribution.
- **SEO:** Optimized local search visibility through **JSON-LD Schema** and technical SEO audits to dominate the local fitness market.
